

Big science smaller footprint

Sustainability Webinars for EPFL

Sustainability in science is not just a goal – it's a movement! Join us for exclusive webinars designed specifically for EPFL to discover practical ways to introduce greener alternatives and more sustainable practices in your daily lab work.

What you will learn:

- **Actionable Strategies** - more sustainable products you can implement in your lab
- **Impact** – understand how your choices contribute to environmental goals
- **Insights** - Merck’s sustainability strategy

Webinar I: Initiating more sustainable practices in Chemistry Labs

Date: March 23, 2026 / Time: 4:00 – 5:30 PM

Webinar II: Initiating more sustainable practices in Biology Labs

Date: March 30, 2026 / Time: 4:00 – 5:30 PM

Speakers: A team of Merck subject matter experts, product specialists, and technical advisors to provide comprehensive insights into integrating sustainability practices in the lab.
