

CV: Dr. Charlotte Lang

Born in 1988 in Strasbourg, France, Charlotte Lang obtained her master graduation in 2012 from the university of Strasbourg. During the end-cycle internship, she worked at ICPEES on olivine-based catalyst for the steam reforming of toluene. She finally pursue her studies with her thesis at ICPEES to obtain her PhD degree in April 2016. Her doctoral thesis was integrated to the European project UNIFY. She worked on the development of water-gas shift catalysts to produce pure hydrogen from biomass steam gasification.
