PERSONAL & HEALTH LOGGING SOLUTIONS

Specialized in sensitive and health data management, PrYv developed software back-end solution to empower Medtech and connected-health SMEs to market their products and with reduced time to market and IT expenses.

[www.pryv.com](http://www.pryv.com)

Offers to reduce the first-aid action time after a two-wheeler crash, specifying automatically the accident location and the patient's medical file to emergency services.

Nowy Friends  
Know when your friends are nearby.

Lets people know when their friends are nearby, for ex. in the same metro. The smartphone app is accurate, battery friendly, works anywhere, and protects sers' privacy, while not using GPS or Internet.
