**Prof. Andreas Laeuchli**

Institut für  
Theoretische Physik,  
Universität Innsbruck

Monday

October 19th

16:15

on zoom

In this talk I will review some of our activity on a range of computational quantum matter studies, ranging from quantum magnetism in condensed matter and quantum optical platforms, to non-equilibrium dynamics in open and closed quantum systems. I will also briefly discuss some results aimed at spectroscopy of quantum field theories arising in the context of quantum matter.
