

# NEXT MEET-UP

@ Swisscom Digital Lab - EPFL Innovation park, F

Wednesday, June 19th

From 12 PM to 2 PM

**Speaker: Robert West** is an assistant professor of Computer Science at EPFL, where he heads the Data Science Lab.

**Talk: "Crosslingual Document Embedding as Reduced-Rank Ridge Regression"**

Robert will introduce Cr5 (Crosslingual reduced-rank ridge regression), a method for embedding documents written in any language into a single, language-independent vector space, such that documents can be seamlessly compared across languages.

**Registration Mandatory on: [Swisscom Digital Lab Meet-up](#)**
