# Professional Journey Showcase

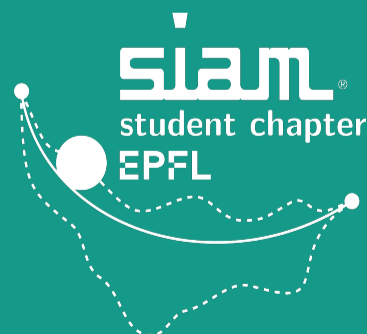

Oct 8th, 2024 17:05 - 18:15  
@ EPFL room: MA B1 11

## Dirk Hartmann

Siemens Technical Fellow, Munich (DE)  
Siemens Digital Industries Software

Dirk Hartmann is an industrial mathematician, intrapreneur, and thought leader in the field of Simulation and Digital Twin. In his career, he took several leading roles in research, innovation, and development across Siemens including the lead of a multi-million Siemens R&D program and the technical leadership for the Simulation & Digital Twin field at Siemens Technology with more than 120 scientists across the globe. Many of his innovations have led to novel products and are regularly showcased at Siemens innovation events. For these achievements, he has received numerous Siemens awards, including the prestigious Werner-von-Siemens Top Innovator Award in 2019 and the Siemens Inventor of the Year Award in 2021.

The workshop will include a **presentation** by the speaker and a **Q&A** session!  
The event will be followed by a **networking apéro!**
