

**Bio:**

Serge Biollaz received his master's degree (1991) and PhD (1997) from the Department of Mechanical and Process Engineering at the ETH Zürich, Switzerland. Since 1997, he works at Paul Scherrer Institut (PSI), where he has been appointed group head in 2000.

Overall he is working since 1992 on thermo-chemical biomass conversion (combustion and gasification) for power generation and liquid/gaseous transportation fuel production.
