

GARCIA Project Swiss National Conference | University of Lausanne | November 24-25, 2016

EARLY ACADEMIC CAREERS IN TIMES OF UNCERTAINTY CHALLENGES FOR GENDER EQUALITY POLICIES AND PRACTICES

Concerned with fighting against gender stereotypes and promoting an egalitarian gender culture in seven different European universities, the GARCIA project (Gendering the academy and research: Combating career instability and asymmetries) will end in January 2017. This event is the Swiss national conference of the project.

The main results of the GARCIA project will be presented, along with papers from various Swiss higher education and research institutions (swissuniversities, Swiss National Science Foundation, etc.) and other invited speakers.

Sessions will address the socio-historical aspects of academic careers, in relation to the alternative opportunities available on the Swiss labour market, and the effects of gender equality policies in the Swiss context.

8 PRESENTATIONS

By Swiss and international experts of gender inequality issues in the academia

1 KEYNOTE TALK

By Klea FANIKO, Utrecht University, the Netherlands, and University of Geneva

3 WORKSHOPS

- › Promoting an "equality culture" in academic institutions
- › Follow the money, find the power issues
- › Go abroad, become excellent?

PLENTY OF OCCASIONS FOR SOCIALISING

Exchange best practices in an informal setting
